Jenny Holding BSc (Hons) Dip HE RN
Nurse Practitioner
Independent & Supplementary Nurse Prescriber

Common Medical problems

Many common conditions will be self limiting. They can generally be treated by simple over the counter medications. Additional advice can be obtained from the pharmacist. You do not necessarily need to contact the Abbey View Practice.

These conditions include:

Bites & stings	Ear Ache
Colds	Mouth ulcers
Conjunctivitis	Sore throats
Coughs	Thrush
Diarrhoea & vomiting	

If you don't improve or are more unwell it may be appropriate to attend the **Rapid Access Clinic**.

The consultation will be with our specially trained Nurse Practitioner. She is very experienced, has full prescribing capabilities and can liaise with a doctor if necessary.

Other conditions that can be managed in the **Rapid Access Clinic** include:

Contraceptive pill prescriptions
Cystitis
Emergency Contraception
Head Lice
HRT prescription follow up
Rashes, eczema, impetigo and sunburn
Sexual health, including chlamydia and STD screening
Shingles
Upper & lower respiratory tract infections
Wart treatment (including cryotherapy on hands and feet)
Worms

.....and a wide variety of other conditions
